EXPERIENCE

Software Engineer

Hewlett Packard Enterprise R&D

📅 July 2019 – Present

📍 Bengaluru, Karnataka

- Involved in Design and Development of **Aruba Lab Reservation Tool** using **Mongo DB, Express JS, React** and **Node JS**, which helped manage 8000+ network devices.
- Involved in developing Network Auto-Discovery of switches using **REST/SNMP, Node JS** and **Python**.
- Involved in the development of **Triage Tool**, which reduced the manual efforts in triage and reporting of automated test executions using **Mongo DB, Express JS, React** and **Node JS** web stack and **Python**.
- Developed **Feature Parity Checker** using python for check-in analysis in **Jenkins** to prevent incorrect check-ins.
- Involved in developing **Boot Characterisation** scripts which helped in identifying critical issues in low-end Aruba Switches using **Python**.
- Involved in developing a networking daemon health monitor to help baseline and analyse behaviour of L3 protocols such as **OSPF** and **BGP** in Aruba Switch builds using **Python**.
- Automated the evaluation of convergence time characteristics of L2 protocols such as **STP, ERPS** and **Loop Protect** using **Python**.

R & D Intern

Hewlett Packard Enterprise R&D

📅 January 2019 – July 2019

📍 Bengaluru, Karnataka

- Involved in Automation testing of various L2 and L3 networking protocols such as **ARP, ERPS, OSPF** and **Security Features** using **Python** and **Automation Test Framework**

- Developed web tool to generate **AOS-CX** configuration commands for a given **AOS** configuration commands using **Flask** and **Python**.

EDUCATION

Bachelor of Engineering (BE), Electrical and Electronics Engineering

PSG Institute of Technology and Applied Research

📅 2015 – 2019

📍 Coimbatore, Tamil Nadu

Relevant Courses: C and C++ Programming languages and Object-Oriented Programming.

TECHNICAL SKILLS

- **Programming Languages:** C/C++, Python, Javascript
- Data structures and Algorithms
- **Web Tech:** ReactJS, NodeJS, Express, Flask
- **Databases:** MongoDB, PostgreSQL, MySQL
- **Others:** Linux, Git, JIRA, pytest

OTHER ACTIVITIES

- Participated in Aruba Hackathon 2019 in a team of 3 and designed "**The Policy based correlation between L2 and L3 interface MTU**" for Matrix ASIC.
- Received "**Person of Excellence - Recognition**" from HPE, Aruba for performance from September 2020 to August 2021.
